

Here's What Others Are Saying...

"I can't go any other way because I have really seen results. There's no way you can think about going to a physician who doesn't believe in technology that helps so much."

-Maggie Wymer, Patient

"The overall feeling of my Family, now that we've had our Biomeridian Testing, is incredible. We have answers now, we're seeing results, we're happier and we're healthier. I feel that now we can be a normal family."

-Linda Hoff
Patient

"It has had a huge impact on my life. I am very grateful for what it has done for me."

-Jill Reese
Patient

"As a company, we are saving money and reducing our medical expenses. Our employees are feeling better physically and therefore are providing better productivity and lower absenteeism - all this with the BioMeridian technology. It's been miraculous, it's truly amazing. I would encourage anyone to look at and consider it."

-Doug Youngers

of a BIM Assessment

Digital Nutrition Evaluations.

HIGH TECH SOLUTIONS FOR YOUR WELLNESS NEEDS.

Utilizing the latest in Scientific Healthcare Technology, the doctors of Mink Chiropractic Center can provide you with the very best in Wellness Services.

What is BioElectrical Impedance Measurement?

BIOMERIDIAN TESTING

- QUICK.
- GENTLE.
- OBJECTIVE.
- EASY TO UNDERSTAND.
- SAFE.

BioElectrical Impedance Measurement (BIM) measures the electrical conductivity between specific points on the body by creating a "circuit", and then measuring the flow of electricity between those points. BIM devices have been consistently used in healthcare to non-invasively obtain important health information. Some of the more recognizable devices include EKG's and EEG's used to measure heart and brain function. There is substantial scientific information supporting BIM testing.

Why Should You Want a BIM Assessment?

Simply stated, "it works!" The BIM assessment is a state-of-the-art tool designed to measure 58 different electrical "circuits" in your body related to specific organs and systems. Your measurements are then compared against a database of over 1.5 million tests to identify areas of your body that have moved away from the norm. With that powerful information, the BIM assessment software will assist your practitioner in effectively formulating a comprehensive support program that includes detailed recommendations for an optimal supplementation regimen customized to your specific needs.

Safe and Painless

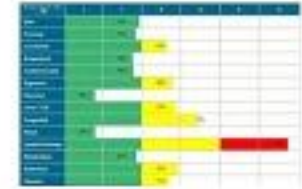

The BIM assessment is safe, non-invasive, and painless. It can be used on patients of all ages and does not require any special preparation. All BioMeridian devices have FDA registration and CE approval.

Accurate and Objective

A standard BIM assessment can be completed in our office in less than 20 minutes.

On Screen Results

Sample of BIM assessment of 14 body systems.

Take Home Reports

Test results are color-coded in an easy-to-understand take-home report containing the doctor's recommendations.
